

The SOMMER logo is displayed in white capital letters inside a white rounded rectangular border with a small diagonal line at the bottom right corner.

The Powerful Industrial Operator for the Highest Demands

SOMMER GIGAline

Industrial Applications | The Intelligent Operator

The GIGAline is SOMMER's advanced industrial door operator, engineered for powerful, high-speed performance with intelligent motion control and precise force adjustment. Designed for demanding applications, the system continuously monitors and adapts door movement in real time, automatically optimising operation to deliver smooth, reliable and efficient performance day after day.

Type	GIGAline
Max Door Weight	500KG
Max Speed	210mm per sec
Max Pull/Push Force	800N
Sectional Door - Max Door Width	8000mm
Sectional Door - Max Door Height	3500mm
Product Code	#1656-0108

global-access.com.au

Exclusive to The GLOBAL ACCESS logo features the word 'GLOBAL' in a large, bold, sans-serif font, with 'ACCESS' in a smaller font below it. A stylized blue circular icon with a white dot is positioned between the two words.

Key Features:

Compact, low headroom solution with a short 200mm requirement

Modular rail configurations allowing adaptation to different door sizes and travel requirements

Flexible motor positioning options to suit varying site constraints and building layouts

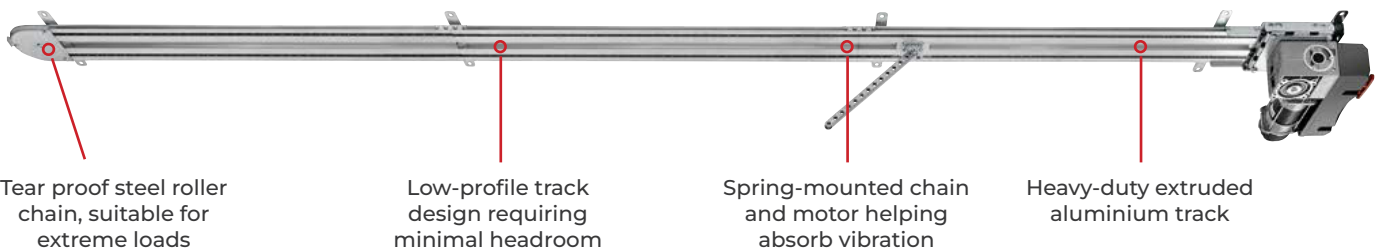

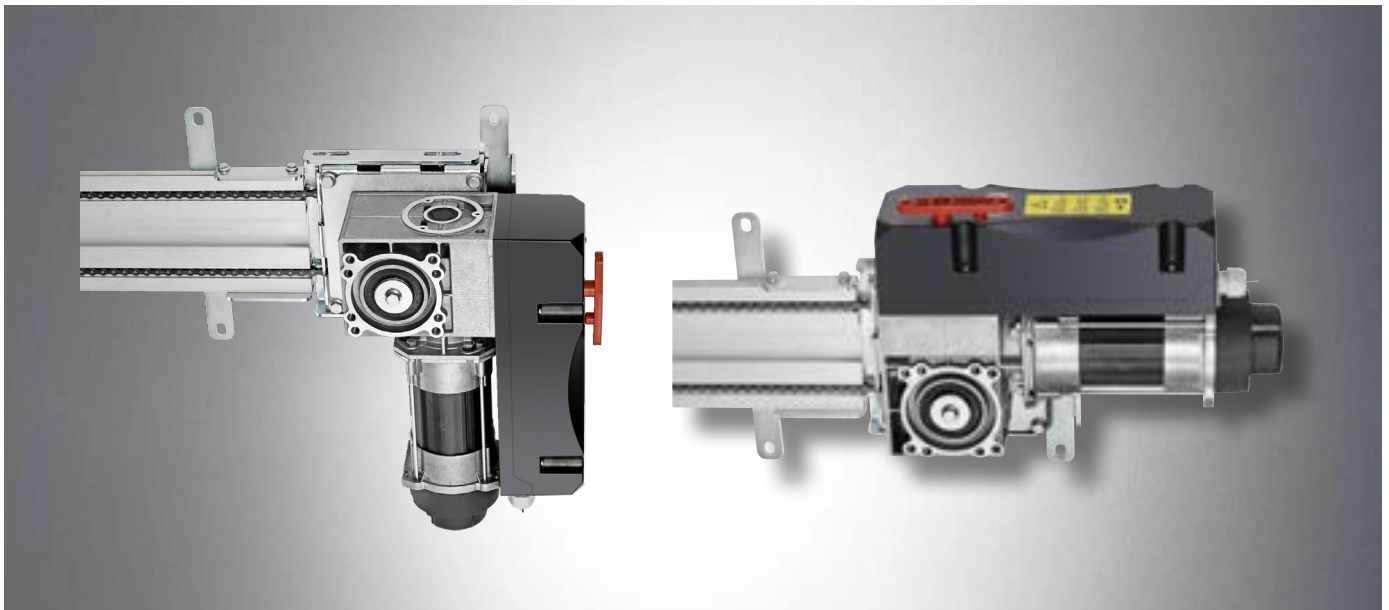

Frequency converter (FC) compatibility for smooth acceleration and deceleration, reducing mechanical strain

Quiet operation due to a spring mounted chain that reduces vibration

Compatible with SOMMER's premium range of access control solutions

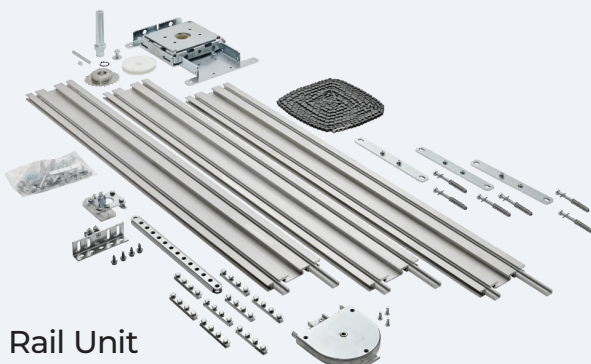

Tear proof steel roller chain, suitable for extreme loads

Low-profile track design requiring minimal headroom

Spring-mounted chain and motor helping absorb vibration

Heavy-duty extruded aluminium track

Additional Hardware:

Rail Unit

Rail Extension
