

**The Smart Connectivity Ecosystem
that is Bringing Gates, Doors and
Barriers into the Digital Age!**

App control for automation systems

Designed to Benefit Installers & Users Alike!

Installers Benefits:

Tailored 'Pro' app designed specifically for installers - a database for your installations

Troubleshoot & manage automation off-site with remote diagnostics

Experience Advanced onsite programming via the Pro app

User Benefits:

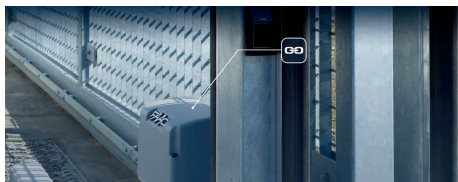

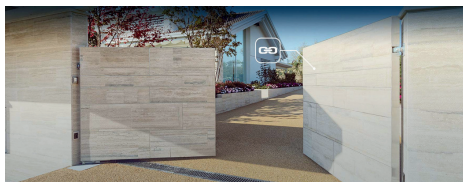

Open, Close & monitor your automation via a user smart app

Connect easily to Alexa, Google Home or Apple Homekit for voice control

Add or remove family, friends, or staff with just a few taps in the app

Advanced Features of the Installer App

- ✓ Monitor automation systems offsite
- ✓ Centralised Database of your past installs
- ✓ Add/modify/revoke transmitters remotely
- ✓ Advanced parameters for onsite programming
- ✓ Servicing alerts that prompt follow up for returned business
